

January 19, 2016

Thank you for your inquiry regarding clinical papers for the MonaLisa Touch® Laser System. The FDA cleared indication for MonaLisa Touch is listed below.

It is indicated for incision, excision, ablation, vaporization and coagulation of body soft tissues in medical specialties including aesthetic (dermatology and plastic surgery), podiatry, otolaryngology (ENT), gynecology, neurosurgery, orthopedics, general and thoracic surgery (including open and endoscopic), dental and oral surgery and genitourinary surgery.

Attached per your request, are peer reviewed clinical papers that are in the public domain related to MonaLisa Touch. As some of these articles are international, some of the clinical research work in these papers may extend beyond the US FDA clearance. We are providing these papers to you to answer your request of clinical data.

Sincerely,

Connie Hoy
SVP Regulatory Affairs
